

IMPROVE CUSTOMER AUTOMOTIVE EXPERIENCE WITH DIGITAL SIGNAGE

Digital signage for Automotive experiences gives you the power to deliver tailored and varied digital signage content to your automotive locations, regardless of scale. By removing older paper signage, you'll be able to deliver a richer, more interactive experience while reducing your overall management cost.

BETTER ENGAGEMENT WITH YOUR CUSTOMERS

Digital signage allows you to create more engaging, time-sensitive content, with the ability to display location-based content and many more key features. With Signagelive, you're able to configure your content plan, manage your player's uptime and make sure your content is delivered to the correct locations, all while being managed completely remotely with an unlimited number of users.

CREATE A MORE ENGAGING EXPERIENCE

Build a more interactive digital signage experience to wow your customers. Create the next level of interactivity with touch-screen wayfinding and build more engaging experiences with Lift and Learn to allow your customers to learn about your products. With Signagelive, all of this content is managed in the cloud, allowing you to build out your content workflow.

ENTERTAIN YOUR CUSTOMERS

As your customers wait for service and repairs, keep them entertained and informed about the latest offers, deals and more.

Keep your customers entertained while they wait for service and repairs while educating them on the latest offers and deals. Live TV can be displayed alongside the latest news or Social media feeds.

CUSTOMISE YOUR CUSTOMERS EXPERIENCE

Build in the "Wow" factor and add value to your customer journey by adding tailored content that's quick and easy to generate. Thank customers for their purchase to build a lasting impression.

ENTERPRISE TOOLS AT YOUR DISPOSAL

Digital signage is more than just delivering content to your screens. You need a robust feature set of tools at your disposal. SSO, Granular User Permissions, Proactive monitoring, Emergency messaging, Proof of play, and more features are available with Signagelive.

"I like how easy it is to use, the training you are provided with really is useful and easy to follow, and the team at signage live is super helpful and so swift at responding to calls for support and resolution of queries."
