

# BUILD ENGAGING DIGITAL SIGNAGE FOR YOUR STADIUM

Digital signage for Stadiums gives you the power to deliver tailored and varied content to match your location's event. Remove the pain of paper signs and create a robust and eye-catching experience for your audience.

## GIVE THE FIRST-CLASS EXPERIENCE

Give your VIP's the first-class experience to watch live events, catch up with recent news or utilise your digital signage to brand your box's for corporate engagements or special events.

Display content from your location via IPTV streaming or show content such as Live TV, latest scores or other upcoming events.

## DELIVER THE "WOW" FACTOR

Create rich interactive environments for your guests and leave them with a lasting impression of their experience. Configure your content to display the right information months in advance and brand your stadium for today's event.

Customise your signage for events, gigs, games and more.

“The ability to manage our content remotely at multiple sites. We have many TV screens in multiple locations which play our content and we can manage all of them from a central portal. Very easy.”

Chris W

## SCALABLE CONCESSION

Display your latest concession prices and offers with the click of a button anywhere in the world.

Use your own content or utilize our Google sheet integrated apps (free from the Marketplace).

Take your concession one step further by integrating your existing POS data to update your pricing and create a fully-automated platform.

## ENTERPRISE TOOLS AT YOUR DISPOSAL

Digital signage is more than just delivering content to your screens. You need a robust feature set of tools at your disposal. SSO, Granular User Permissions, Proactive monitoring, Emergency messaging, Proof of play, and more features are available with Signagelive.

“ Easy to use and it just works. ”  
**John F**

“ Each asset can be given an expiry date, so that it removes itself automatically - saving us lots of time. Before Signagelive, we had to use BrightAuthor to make dozens of playlists or update manually often - but now we only need to update our marketing once a month, and it will never show anything out of date. ”

**Andy R**

### TRUSTED WORLDWIDE

### SIMPLIFY INSTALLATION AND DEPLOYMENT

DELIVER YOUR MESSAGE TO ANYONE, ANYWHERE, WITH A RANGE OF HARDWARE OPTIONS AT ANY SCALE

### CHOOSE FROM A RANGE OF PLAYERS
