

# WHICH SIGNAGELIVE LICENCE IS RIGHT FOR YOU?

There are several Signagelive licences to choose between. Choosing the right licence will depend on what you need from your digital signage. You can always mix your licences on a Signagelive network so you're always getting the best value from them.

## WEB CONTENT LICENCE

For web and widget content only.

### IDEAL FOR

Customers looking for a cost-effective way to schedule and display web content, display dashboards, URLs or want to use our 100s of free apps in the Marketplace.

### REQUIREMENT

To be able to use the full capabilities of our platform to manage and schedule web apps, web content and URLs without the need to publish and display images and videos.

### EXAMPLE OF USE

Display sales data e.g. Power BI, Grow or Ambition, or can be used with Mersive, Airtame or Screenbeam to make the most of the screens in huddle spaces or meeting rooms.

## STANDARD LICENCE

All supported player content including layout and scheduling capabilities.

All simple and complex projects where you need to schedule and synchronise content creation e.g. menu boards, videowall, automated content e.g. news, sports, weather.

If you need to use images, videos, web pages, Live TV, multizone content and Marketplace apps.

In public spaces, retail stores, hotels, restaurants, corporate buildings, stadiums, etc.

## BROADCAST PLAYER LICENCE

All supported player content - except for video files (Youtube is fine) and can be used by an unlimited number of users.

### IDEAL FOR

Communicating key messages to all colleagues to keep everyone informed using a unique URL.

### REQUIREMENT

To develop a new product that would enable organisations to create and send messages to laptops, tablets and mobile phones of their colleagues.

### EXAMPLE OF USE

A weblink can be shared across a team of remote workers for them to view on their devices e.g. Health and Safety, COVID 19 updates, CEO announcements.

## ALL LICENCES ARE PER CONNECTED DEVICE/PLAYER AND INCLUDE:
